

TECH RIDER LIVE SET / SWARM INTELLIGENCE

Promoter will need to provide the following :

Set duration: 1 hour. Other durations need to be agreed upon beforehand.

TECHNICAL REQUIREMENTS

- > Stereo monitoring system, with independent volume control from the booth/stage.
- > PA system that must be fully operational and suitable for the size of the venue and audience, without any distortion from 30Hz to 18KHz.
- > At least 1.5m2 dedicated table/surface where equipment can remain setup, undisturbed, for the duration of the night.
 - Table height should be 90-110 cm.
- > The equipment should be sufficiently lit, without affecting the overall lighting of the stage/booth (which should be dim).
- > Two balanced analog inputs (1/4" TRS, or RCA), either into a DJ mixer, or mixing desk / PA system.
- > Four Type-C, surge-protected plug sockets delivering reliable, stable power.

A Note on Monitoring

Please ensure the monitors provide a full frequency range and are fully functioning – there should be no distortion or feedback, and the output must be clearly heard when the PA system is at full operational volume.

Please provide volume control of the monitors from the booth/stage.

Please place the monitors at shoulder height or above, on each side.

Additional Requirements

- > Transport to and from venue must be provided. Driver must be sober!
- > Secure, lockable storage area for equipment bag and belongings is essential.
- > For refreshments, beer (preferably craft beer) and bottled sparkling water are preferred.
- > Before the event, a meal should be provided (ideally some kind of local cuisine).

Note: The artist reserves the right to cancel the performance if any of the above mentioned requirements are not met.
