

PATY VAPOR

RIDER

TECHNICAL REQUIREMENTS & HOSPITALITY

Promoter will need to provide the following

PLAYERS:

3 x Pioneer CDJ 3000 or 2000 NXS2 (linked)

All in good condition properly calibrated and protected against vibration, feedback or other disturbances!

MIXER:

1 x Allen & Heath Xone 92 (preferred) or 96

MONITORING:

2 x high-quality stereo booth monitors with suitable amplification, allowing independent volume control from the DJ mixer.

SOUNDCHECK:

Equipment setup and soundcheck should be at least 1h before the doors open

Please have a sound engineer present for soundcheck and performance!

The artist's rider must be fully respected. Any conflicts with the event's rider must be discussed with management in advance.

Please be aware that by signing this contract, you agreed not to record or film the performance. No changes may be made without the explicit prior consent of management. The artist's setup must be fully prepared and connected before stepping onto the stage. The stage must be completely assembled, and all equipment, including the PA system, must be installed and tested before any sound check.

HOSPITALITY:

Private Secure Backstage Area

Drink Tickets

Club Mate or any soft sparkling drink

Water

Prosecco or Vodka

Presence of a contact or stage manager to accompany the artist.

Access to a locker or a safe storage area for personal properties before and after the performance if requested.

We kindly ask you to reduce the use of single use plastics please do not use plastic straws, plastic bottles and plastic cups in the dj booth.
